

# City of Linn Grove Water Supply Drinking Water Advisory Lifted

Customers of the Linn Grove Water Supply were notified on January 31, 2020 of a pressure loss in our system and were advised to use bottled water or an alternative source for drinking and cooking. We are pleased to report that the work has been completed and the bacteria samples were satisfactory (contained no bacteria). **It is no longer necessary to use bottled water for adults, but it is for children under 6 months due to high Manganese.** We apologize for any inconvenience and thank you for your patience.

You may contact *Neil Kruppen, Water Superintendent, City of Linn Grove 712-301-6612* with any comments or questions.

This notice is being sent to you City  
of Linn Grove Water Department.
